Preface

The 2005 South Dakota Health Care Professional Workforce Report serves as a way to determine the vacancy and turnover rate of health care professionals in South Dakota at a single point in time.

The information used to develop the report came from the South Dakota Health Care Professional Workforce Survey. See Appendix D for copies of surveys. The Office of Data, Statistics, and Vital Records and the Office of Rural Health created the survey in consultation with the Colleagues In Caring program. The survey was conducted and analyzed by the Office of Data, Statistics, and Vital Records.

The survey consisted of questions that inquire about the number of vacancies and turnovers of health care professionals within South Dakota. This survey was created in response to the need for information about the status of health care professionals in South Dakota. The data will be shared with all healthcare organizations to help recruitment and retention efforts within the state for all health care professions.

The survey was sent to all Department of Health registered, licensed, and or certified (Medicare/Medicaid) health care facilities within the state of South Dakota as well as clinics. Each facility type received a separate survey that asked about key health care professionals within their facility. Facility types included assisted living centers, inpatient chemical dependency, certified end-stage renal dialysis, clinics, home health agencies, intermediate care for mentally retarded, nursing facilities, rural health clinics, and hospitals including: community, non-community, and specialized.

Any questions regarding The 2005 South Dakota Health Care Professional Workforce Report should be addressed to:

Office of Data, Statistics, and Vital Records
600 East Capitol Avenue
Pierre, South Dakota 57501-2536
Phone: (605) 773-3361

The following people were the main contributors to the development of this report:

Barb Buhler	Public Information Office
Gloria Damgaard	Executive Secretary, SD Board of Nursing
Kim Knittel	Policy Analyst
Kathlene Mueller	Administrator, Office of Data, Statistics, and Vital Records
Linda Young	Project Director, SD Center for Nursing Workforce

Methodology

Data Collection Process

The Department of Health in consultation with the Colleagues in Caring Program developed the workforce survey for the first time in 2002. To collect additional data, the survey was conducted again and sent to all Department of Health licensed, registered, and certified facilities as well as clinics in April of 2005 with a response rate of 73.6 percent. A second round of surveys was sent to non-responding facilities to improve the response rate. The second round of surveys improved the return rate to 88.2 percent. Surveys were entered into an Access database and analyzed using Excel.

For analysis purposes only full-time positions, vacancies, and turnovers were used throughout this report.

Turnover numbers are reported for the facilities' fiscal year. However, vacancy numbers are reported as of January 31, 2005.

Data Limitations

This report includes clinics and Department of Health licensed, registered, and certified facilities and the health professionals employed in these facilities. Therefore, this data cannot be extrapolated to facilities that were not surveyed.

Publication Format

The report is divided into four main areas: statewide data, geographic area, facility type, and selected profession groups.

- Statewide data includes data for all facility types.
- Geographic area breaks out the facilities by community size. They are either considered urban, rural, or frontier. See Appendix C for a map of the urban, rural, and frontier areas in South Dakota.
- Facility type is the break out of the nine different facility types.
- Selected profession groups were surveyed for a closer look at selected professions.
- Selected profession groups are also trended from 2002 to 2005.
- **Note:** Clinic data is included in 2003, 2004, and 2005 information throughout this report.
- **Note:** Starting in 2005 certified nursing assistants were analyzed separately from nursing assistants. Please do not use past publications to conduct trend analysis on nursing assistants.

TABLE OF CONTENTS

LIST OF FIGURES

Figure	Page
1 Percent of Vacancies and Turnovers.....	3-4
2 Top Ten Full Time Budgeted Positions – Percent of Vacancies and Turnovers.....	5
3 Impact of Vacancies or Turnovers on Facilities.....	6
4 Measures Taken to Tackle Hard-to-Fill Vacancies	6
5 Percent of Surveys Received by Geographic Area	9
6 Percent of Full-Time Positions, Part-Time Positions, Combined Budgeted Vacancies and Combined Turnovers by Geographic Area.....	9
7 Positions with the Highest Percent of Vacancies by Geographic Areas	10
8 Positions with the Highest Percent of Turnovers by Geographic Areas.....	11
9 Top Ten Budgeted Full-Time Positions and Percent of Vacancies	12
10 Top Ten Budgeted Full-Time Positions and Percent of Turnovers	13
11 Hard-to-Fill Positions by Geographic Area	14
12 Responses to Why Positions Were Hard-to-Fill by Geographic Area	14
13 Impact of Vacancies or Turnovers on an Institution by Geographic Area	15
14 Measures Taken to Tackle Hard-to-Fill Vacancies by Geographic Areas	15

Figure	Page
15 Return Rates by Type of Facility.....	19
16 Assisted Living Centers – Percent of Vacancies and Turnovers	20
17 Assisted Living Centers – Responses to Why Vacancies Were Hard-to-Fill.....	20
18 Chemical Dependency Facilities – Percent of Vacancies and Turnovers	21
19 Chemical Dependency Facilities – Responses to Why Vacancies Were Hard-to-Fill.....	21
20 Renal End-Stage Facilities – Percent of Vacancies and Turnovers	22
21 Renal End-Stage Facilities – Responses to Why Vacancies Were Hard-to-Fill.....	22
22 Home Health Agencies – Percent of Vacancies and Turnovers.....	23
23 Home Health Agencies – Responses to Why Vacancies Were Hard-to-Fill	23
24 Nursing Facilities –Responses to Why Vacancies Were Hard-to-Fill	24
25 Nursing Facilities – Percent of Vacancies and Turnovers	25
26 Hospitals – Responses to Why Vacancies Were Hard-to-Fill	26
27 Hospitals – Percent of Vacancies and Turnovers.....	27
28 Rural Health Clinics – Percent of Vacancies and Turnovers	28
29 Rural Health Clinics – Responses to Why Vacancies Were Hard-to-Fill.....	28
30 Clinics – Responses to Why Vacancies Were Hard-to-Fill	29

Figure	Page
31 Clinics – Percent of Vacancies and Turnovers.....	30
32 Intermediate Care Facilities for the Mentally Retarded – Percent of Vacancies and Turnovers.....	31
33 Nursing – Percent of Vacancies by Selected Budgeted Full-Time Positions, 2002-2005	35
34 Nursing – Percent of Turnovers by Selected Budgeted Full-Time Positions, 2002-2005	35
35 Nursing – Hard-to-Fill Responses by the Selected Budgeted Positions, 2002-2005	36
36 Nursing – Percent of Facilities Who Reported Positions as Hard-to-Fill, 2002-2005.....	36
37 Allied Health – Percent of Vacancies by Selected Budgeted Full-Time Positions, 2002-2005	37
38 Allied Health – Percent of Turnovers by Selected Budgeted Full-Time Positions, 2002-2005	37
39 Allied Health – Hard-to-Fill Responses by the Selected Budgeted Positions, 2002-2005	38
40 Allied Health – Percent of Facilities Who Reported Positions as Hard-to-Fill, 2002-2005.....	38
41 Physicians and Physician Assistants – Percent of Vacancies by Selected Budgeted Full-Time Positions, 2002-2005	39
42 Physicians and Physician Assistants – Percent of Turnovers by Selected Budgeted Full-Time Positions, 2002-2005	39
43 Physicians and Physician Assistants – Hard-to-Fill Responses by the Selected Budgeted Positions, 2002-2005	40
44 Physicians and Physician Assistants – Percent of Facilities Who Reported Positions as Hard-to-Fill, 2002-2005	40
